### Declaration number:

NEPD-12971-14204

### This declaration is based on Product Category Rules:

CEN Standard EN 15804:2012+A2:2019 serves as core PCR  
NPCR 010:2022 Part B for building boards

### Statement of liability:

The owner of the declaration shall be liable for the underlying information and evidence. EPD-Global shall not be liable with respect to manufacturer information, life cycle assessment data and evidences.

### Declared unit:

1 m2 Huntonit building boards without surface treatment

### Declared unit with option:

A1-A3, A4, A5, C1, C2, C3, C4, D

### Functional unit:

### General information on verification of EPD from EPD tools:

Independent verification of data, other environmental information and the declaration according to ISO 14025:2010, § 8.1.3 and § 8.1.4. Verification of each EPD is made according to EPD-Global's guidelines for verification and approval requiring that tools are i) integrated into the company's environmental management system, ii) the procedures for use of the EPD tool are approved by EPD-Global, and iii) the process is reviewed annually by an independent third party verifier. See Appendix G of EPD-Global's General Programme Instructions for further information on EPD tools

### Verification of EPD tool:

Independent third party verification of the EPD tool, background data and test-EPD in accordance with EPD-Global's procedures and guidelines for verification and approval of EPD tools.

Third party verifier:

Elisabet Amat, GREENIZE projects

### Year of study:

2024

### Comparability:

EPD of construction products may not be comparable if they not comply with EN 15804 and seen in a building context.

### Development and verification of EPD:

The declaration is created using EPD tool lca.tools ver EPD2022.03, developed by LCA.no. The EPD tool is integrated in the company's management system, and has been approved by EPD-Global. NEPDT138

Developer of EPD: Halvor Stavdal

Reviewer of company-specific input data and EPD: Jon Helge Lande

### Approved:

Håkon Hauan, CEO EPD-Global

## Product

### Product description:

Huntonit building boards are semi-hard wood fiber boards for interior panels in walls and ceilings. The boards are manufactured using the wet process method.

### Product specification

The life cycle assessment has been carried out on 11 mm board without surface treatment.

Materials	kg	%
Additives	0.054	0.6013
Adhesive	0.081	0.9019
Wood	8.85	98.50
Total	8.98	100.00

Packaging	kg	%
Packaging - Cardboard	0.02	7.56
Packaging - Plastic	0.06	25.78
Packaging - Plastic straps	0.00	0.44
Packaging - Wood	0.15	66.22
Total incl. packaging	9.21	100.00

### Technical data:

More product information is available on [www.huntonit.no/www.huntonit.se](http://www.huntonit.no/www.huntonit.se)

Produced according to:	Weight:	Thickness:	Reaction to fire:
EN 622- 3 Board type MBH	≤ 840 kg/m <sup>3</sup>	11 mm	D-s1,d0

### Market:

Norway / Denmark / Sweden. The scenarios are based on the situation in the Norwegian market.

### Reference service life, product

The reference life is the same as for the building, and is usually set at 60 years.

### Reference service life, building or construction works

60 years.

## LCA: Calculation rules

### Declared unit:

1 m<sup>2</sup> Huntonit building boards without surface treatment

### Cut-off criteria:

All major raw materials and all the essential energy is included. The production processes for raw materials and energy flows with very small amounts (less than 1%) are not included when specific information are missing. These cut-off criteria do not apply for hazardous materials and substances.

### Allocation:

The allocation is made in accordance with the provisions of EN 15804. Incoming energy and water and waste production in-house is allocated equally among all products through mass allocation. Effects of primary production of recycled materials is allocated to the main product in which the material was used. The recycling process and transportation of the material is allocated to this analysis.

### Data quality:

Specific data for the product composition are provided by the manufacturer. The data represent the production of the declared product and were collected for EPD development in the year of study. Background data is based on EPDs according to EN 15804 and different LCA databases. The data quality of the raw materials in A1 is presented in the table below.

Production data was collected in 2024. The model of wood raw materials and transport is based on ecoinvent, with extensive changes to increase the representativeness for Norwegian conditions. Other data is from ecoinvent v.3.6, which was released in 2019, but with certain changes to improve the representativeness.

### System boundary:

The flow chart for the entire life cycle (A1-C4) with system boundaries is shown in the figure below. Module D is also included outside the life cycle with energy and material substitution from recycling and is explained in more detail under the scenarios.

### Additional technical information:

The product is manufactured with PEFC certified wood fiber.

1. The results of this environmental impact indicator shall be used with care as the uncertainties on these results are high or as there is limited experienced with the indicator
2. This impact category deals mainly with the eventual impact of low dose ionizing radiation on human health of the nuclear fuel cycle. It does not consider effects due to possible nuclear accidents, occupational exposure nor due to radioactive waste disposal in underground facilities. Potential ionizing radiation from the soil, from radon and from some construction materials is also not measured by this indicator.

GWPIOBC: Global warming potential calculated according to the principle of instantaneous oxidation. In order to increase the transparency of biogenic carbon contribution to climate impact, the indicator GWP-IOBC is required as it declares climate impacts calculated according to the principle of instantaneous oxidation. GWP-IOBC is also referred to as GWP-GHG in context to Swedish public procurement legislation.
